SUMMARY

I am a skilled Software Developer with expertise in both mobile application (Android) and web development. I have a proven track record of building apps and websites from scratch, as well as enhancing existing ones to improve functionality and user experience. My ability to quickly adapt to new technologies, coupled with a strong commitment to delivering high-quality projects on time, allows me to meet client needs efficiently. I'm eager to contribute my expertise and grow alongside a dynamic team.

EDUCATION

MCT's Rajiv Gandhi Institute of Technology

Bachelor's of Engineering in Information Technology
2023 - Present

Government Polytechnic Mumbai

Diploma in Computer Engineering
2020 - 2023

SKILLS

• Languages:

Python,
Javascript,

• Developer Languages:

Java
Flutter
HTML/CSS
ReactJS
NextJS
NodeJS
MySQL
MongoDB

• Technologies:

GitHub,
Postman

PROFESSIONAL EXPERIENCE

Android Developer Intern

Martyear Technology | Jan 23 - Jul 23

- Played a key role in the development of a B2B marketplace Android app.
- Designed, developed, and maintained REST APIs using PHP and MySQL, optimizing query performance and ensuring data integrity.
- Collaborated with the front-end team for seamless API integration and overall system coherence.
- Contributed to the implementation of critical features, including payment gateway integration and real-time messaging.
- Focused on improving the app's reliability, efficiency, and user experience by optimizing backend processes.

PROJECTS

Majha Shetkari - Online Kissan App

Technologies: Android, Java, MySQL, REST API

- Android application designed for farmers to purchase crops, tools, and farming equipment.
- Provides daily commodity (grain) prices to aid farmers in making informed selling decisions based on market conditions.

Mart2Mart - B2B Marketplace App

Technologies: Android, Java, MySQL, REST API, PHP

- Developed a B2B marketplace Android app for seamless business transactions.
- Created and maintained REST APIs using PHP and MySQL to optimize performance and ensure data integrity.
- Integrated features like payment gateways and real-time messaging to enhance functionality and user experience.
