Summary

Passionate Full Stack Developer with a strong focus on the MERN stack (MongoDB, Express.js, React.js, Node.js), driven by a deep interest in building scalable and user-centric web applications. Skilled in developing modern frontend interfaces, integrating RESTful APIs, and crafting robust backend architectures. Also experienced in Android development using Java and Firebase, with a strong inclination toward intuitive mobile solutions. Highly adaptable and committed to delivering impactful digital products across platforms

Technical Skills

- **Programming Languages:** C++, Python, Java
- **Web Technologies:** JavaScript, TypeScript, ReactJS, Next.js, Node.js
- **Mobile Development:** Android (Java), Flutter (Learning)
- **Databases:** MongoDB, MySQL
- **Tools & APIs:** GitHub, Postman, Stripe API
- **Testing:** Manual Testing, Selenium (Automation)

Education

Bachelor of Engineering (B.E) in Information Technology

MCT's Rajiv Gandhi Institute of Technology, Mumbai
CGPA-7.57 | Expected year of Completion: 2026

Post SSC Diploma in Computer Engineering

Government Polytechnic, Mumbai
Percentage - 82.58% | Completed : 2023

Experience

Martyear Technology Pvt. Ltd.

Android Developer Intern | Jan 2023 - July 2023 | Mumbai, India

- Contributed to the development of a B2B marketplace Android app by building and maintaining RESTful APIs using PHP and MySQL.
- Optimized database performance, ensured data integrity, and collaborated with the front-end team for smooth API integration.
- Helped implement key features like payment gateway integration and real-time messaging to improve app reliability and user experience.

Projects

Majha Shetkari - Online Kisaan App

Nov 2023 - April 2024 | Android, Java, MySQL, Firebase, Postman, REST API

- Android application designed for farmers to purchase crops, tools, and farming equipment.
- Provides daily commodity (grain) prices to aid farmers in making informed selling decisions based on market conditions.

WYD - WearYourDesign

Nov 2024 - April 2025 | ReactJS, Next.js, JavaScript, Vite.js, MongoDB, Stripe API, Postman

- Enabled custom T-shirt design using canvas customization, html2canvas, and 3D mockups for real-time visualization.
- Integrated Stripe API for secure payment processing and a smooth checkout experience.
- Developed a full-fledged e-commerce platform with a complete admin panel using Next.js, Vite.js, and MongoDB for product management and order tracking.

Certifications

Java Programming (Foundation) - Study Section (July 2022)
