PROFESSIONAL SUMMARY

Software Developer with hands-on experience in full-stack application development, mobile applications, and AI-powered solutions. Skilled in designing and developing scalable web and mobile applications using React, Next.js, React Native, Node.js, and cloud technologies. Strong foundation in data structures, object-oriented programming, APIs, and database management with experience building real-world applications from development to deployment. Passionate about building impactful software solutions and continuously learning modern technologies.

TECHNICAL SKILLS

Programming Languages: Java, Python, JavaScript, TypeScript
Frontend Development: React.js, Next.js, React Native, HTML, CSS, Tailwind CSS
Backend Development: Node.js, Express.js, FastAPI, REST APIs
Databases & Storage: MongoDB, MySQL, Firebase, Cloudinary
Blockchain: Ethereum, Solidity, Web3.js
Tools & Platforms: Git, GitHub, Docker, Vercel
AI & Integrations: Google Gemini API, GitHub API
Core Concepts: Data Structures & Algorithms, OOP, DBMS, CI/CD

PROFESSIONAL EXPERIENCE

Android Developer Intern <i>Martyear Technology Pvt Ltd</i>	Jan 2023 – Jul 2023 <i>Mira Bhayandar, Maharashtra</i>
- Developed a full-stack B2B marketplace application handling 10K+ daily transactions with real-time sync. - Optimized MySQL database schemas and designed RESTful APIs, resulting in a 40% improvement in query performance and platform responsiveness. - Practiced Agile methodology, participating in code reviews to ensure adherence to style guidelines and best practices. - Implemented unit tests to ensure stability across core data processing modules.	

KEY PROJECTS

TicketChain - Blockchain Event Ticketing System <i>React.js, Ethereum, Solidity, Web3.js</i>	2026
- Developed a blockchain-based ticketing platform for events including concerts, conferences, and sports activities. - Implemented secure ticket minting and ownership verification using Ethereum smart contracts to improve authenticity. - Built ticket ownership transfer functionality and personalized dashboards for managing ticket history and records.	
HealthMateX - Smart Health Companion <i>React Native, Firebase, MongoDB, Cloudinary, Gemini API</i>	2025
- Built a healthcare companion application enabling users to manage medical reports and book doctor appointments. - Implemented Firebase authentication and Cloudinary integration for secure user access and cloud-based report storage. - Integrated Google Gemini API and MongoDB to provide AI-powered healthcare assistance and patient data management.	
Reado AI - Readme Generator <i>Next.js, TypeScript, FastAPI, MongoDB, Gemini API</i> Live	2025
- Built an AI-powered platform that automatically generates high-quality README documentation from GitHub repositories through intelligent source code analysis. - Developed a scalable FastAPI backend with authentication, repository parsing, and secure handling of project data. - Integrated GitHub API and Google Gemini API to automate markdown generation and simplify developer documentation workflows.	
WearYourDesign - Custom Clothing Platform <i>React.js, Next.js, Express.js, MongoDB, Stripe</i>	2025
- Developed a full-stack custom clothing platform with an admin dashboard for managing products, inventory, and orders. - Implemented an interactive T-shirt customization module with real-time design previews to enhance user experience. - Integrated MongoDB database and Stripe payment gateway for secure transactions and efficient order processing.	

EDUCATION

MCT's Rajiv Gandhi Institute of Technology <i>Bachelor of Engineering in Information Technology – CGPA: 7.2/10</i>	Mumbai, MH Sep 2023 – May 2026
Government Polytechnic Mumbai <i>Diploma in Computer Engineering – 82.58%</i>	Mumbai, MH Jan 2020 – May 2023

CERTIFICATIONS & ACHIEVEMENTS

Certifications: Google Cloud Intro to Generative AI, Java Programming Foundation
